WANDERLUST & WARMTH:
THE WEBB FAMILY'S JOURNEY
THROUGH LIFE & TRAVEL

By Eleni Yiapis | Photos by Michelle Bender | Additional photos provided by The Webb Family

The Webb family is an adventurous and tight-knit trio who embrace travel, community, and making lasting memories. Chad and Jessica Webb, along with their daughter, Ava Grace, have built a life filled with love, exploration, and a strong connection to their Melbourne Beach neighborhood.

Chad and Jessica's journey together began in Charleston, South Carolina, where they were introduced by a mutual

friend in 2014. Their love story took them to Spain, where they exchanged vows in the breathtaking Sabatini Gardens of Madrid, with the stunning Royal Palace as their backdrop. This unforgettable moment remains one of their most cherished memories.

Education & Careers

With nearly 50 years of combined industry experience, Chad and Jessica have built successful careers in the beverage sector. Chad, who holds an MBA in International Business, owns his own beverage company, while Jessica has an undergraduate degree in Business Administration and works

for a national beverage company based in Florida. Their professional expertise and dedication have played a key role in their success.

Sports & Active Lifestyles

Jessica has always been active in sports, having played basketball, volleyball, softball, and even skiing during her younger years. Chad's primary passion was ice hockey, though he has enjoyed various sports over the years. These days, Chad stays active by running on the beach, while both parents dedicate much of their energy to keeping up with their lively daughter, Ava Grace.

Hobbies & Interests

Travel is at the heart of the Webb family's adventures. They love immersing themselves in different cultures and particularly enjoy visiting traditional German Christmas markets. When at home, they spend time exploring Central Florida, visiting Disney World, and participating in community happy hours with friends. Their close-knit "Melbourne Beach Family" has become an essential part of their lives.

A Glimpse into Ava Grace

Ava Grace is a bright and witty young girl who will be five years old in April. She has a deep love for music and animals and is known for her kindness and thoughtfulness. She enjoys reading bedtime stories, watching Star Wars with Chad, and indulging in her love for Disney Princesses. One of her favorite activities is spending time with her Grammy Amy and staying connected with family and friends through FaceTime.

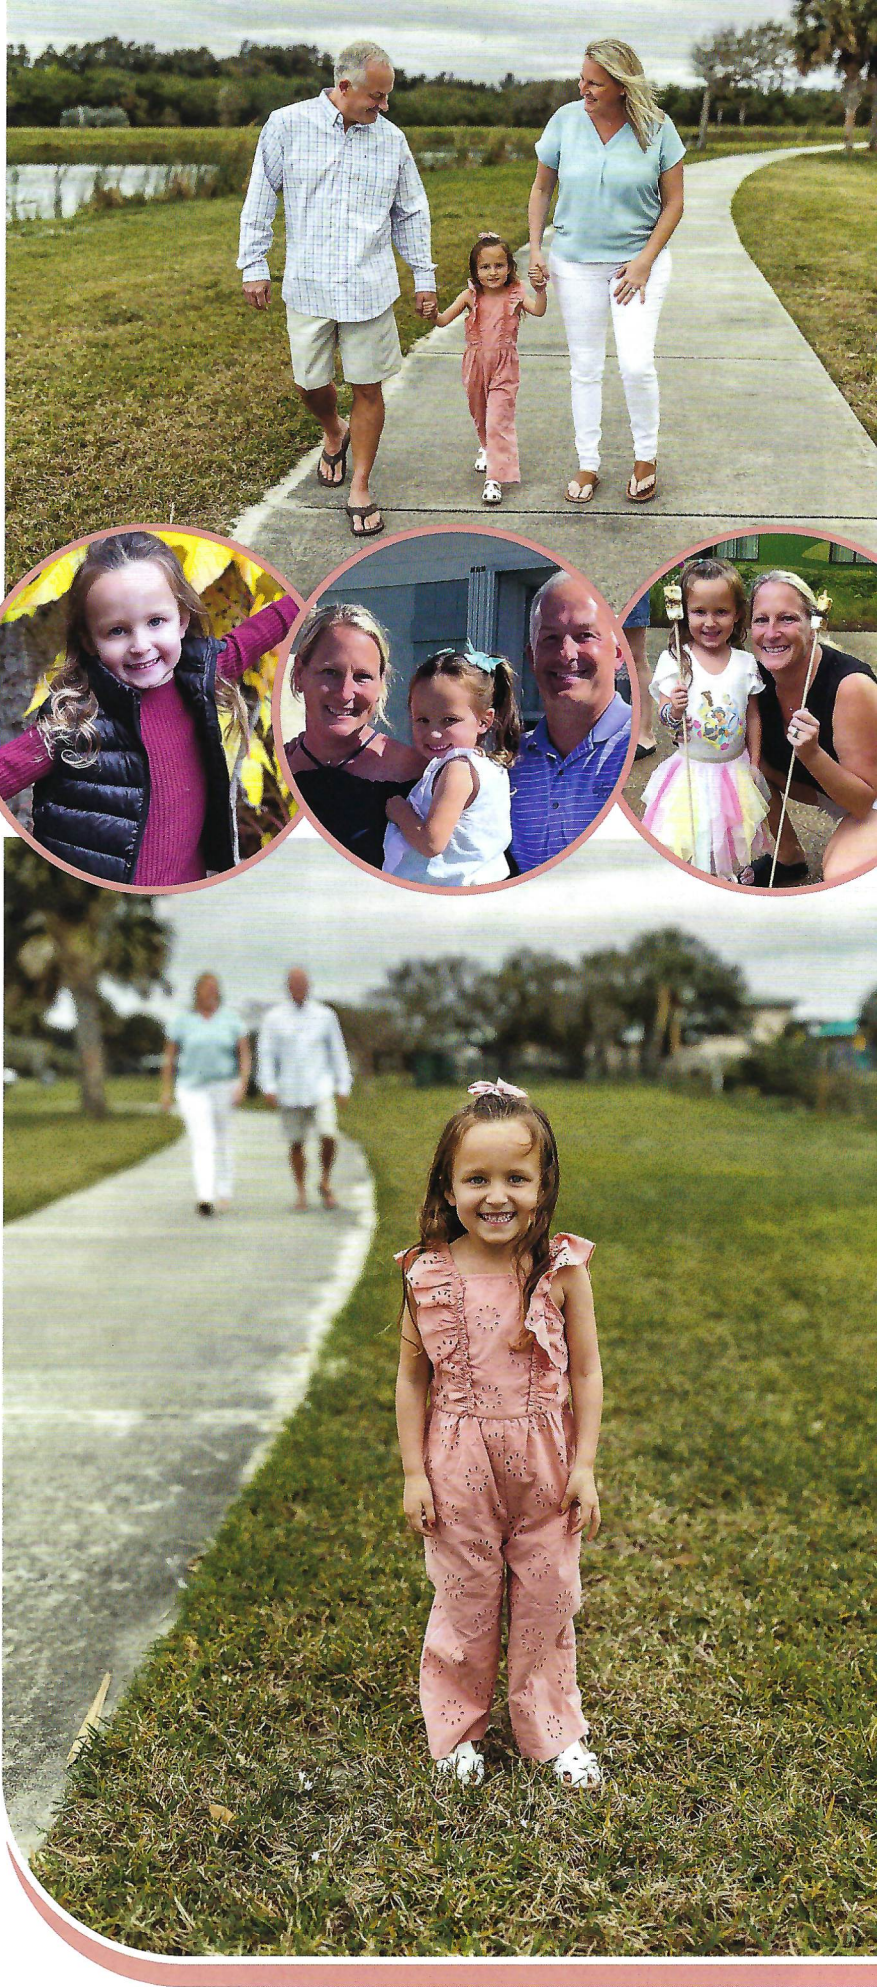

Life in Melbourne Beach

The Webb family resides in the Seabreeze subdivision of Melbourne Beach. Although they officially moved there in 2020, their familiarity with the area stretches back years through visits to family and friends. Their love for the beach and the strong sense of community ultimately drew them to settle down in this paradise.

Living in Melbourne Beach has provided the Webbs with incredible neighbors from all over the country and world. They love the impromptu gatherings and the strong sense of camaraderie, where everyone looks out for each other. Ava's best friend even lives right across the street, making for endless playdates and joyful evenings watching the girls play together.

Both Chad and Jessica take pride in giving back to their community. Chad uses his extensive business knowledge to assist those in need, while Jessica shares her tech skills to help family, friends, and neighbors with various challenges. They also love exchanging travel stories with their neighbors and hearing about the many adventures their friends have experienced.

Family Adventures & Travel

The Webbs are seasoned travelers, having visited over 50 countries, and they have passed on their love of travel to Ava, who has already visited 10 countries herself. One of their most treasured memories is celebrating Ava's third birthday in Paris, where she was mesmerized by the twinkling Eiffel Tower and proudly told everyone about her shopping experience on the Champs-Élysées.

Their family trips often focus on cultural immersion, particularly in Europe, where they

explore diverse cuisines and traditions. Their goal is to educate Ava on the importance of understanding and respecting different cultures. Whenever their schedules allow, they take the opportunity to embark on new adventures.

While the Webbs love exploring the world, nothing compares to the feeling of returning home to Melbourne Beach. They feel incredibly fortunate to have found such a wonderful community filled with amazing people and meaningful friendships. They look forward to making even more memories in the years to come.
